## Experience

### City of Kalamunda

#### Project manager Water Projects

**September 2018-  
Current**

##### ROLE OVERVIEW

- This position oversees the leadership, advice and direction of procurement strategies and project management for various water infrastructure projects.
- The provision of expert advice relating to project management.
- Monitoring and reporting on contract and risk management performance for projects under direct responsibility is also required.
- Development of significant to high risk and high value contracts, including procurement planning, tender documentation and evaluation, contract formation, and contract management plans in consultation and negotiation with stakeholders.
- Provides specialist advice on high profile and value water resource infrastructure projects and contract management issues.

### City of Kalamunda

**July 2013- September-2018**

#### Coordinator Project Delivery

- Programme and coordinate works, maintenance, manpower and machinery allocations.
- Provide operational progress reports.
- Interview selection and training of supervisors and staff.
- Advise and recommend procedural and operational changes.
- Advise, recommend and report in areas of accident investigation.
- Monitor materials, hours worked, plant hire and plant utilisation to ensure that costs are in keeping with project budget.
- Ensure contract/tender documents meet the project or operational objectives.
- Oversee the delivery of contracts to ensure compliance with contract/tender requirements, including OS&H.
- Oversee audits and implement corrective action for non-compliance, poor quality or other non-performance of contract/tender works.
- Organise quotes for works, engage and supervise contractor services.
- Provide advice, oversee works and clear for payment
- Control and coordinate work flow between staff and contractors.
- Ongoing monitoring of project deliverables and escalating issues to the project control group or Manager Infrastructure Operations.

## **Shire of Kalamunda**

**December 2012-July  
2013**

### **A/Coordinator Parks Management**

- Monitor budget and cost centres.
- Assist in the development of budgets, including the provision of information.
- Programme and coordinate projects, maintenance and service activities and oversee, with Supervisors, the allocation of manpower, materials and machinery.
- Provide operational progress reports.
- Interview selection and training of supervisors and staff.
- Advise and recommend procedural and operational changes.
- Advise, recommend and report in areas of accident investigation.
- Monitor materials, hours worked, plant hire and plant utilisation to ensure that costs are in keeping with project budget.

## **Shire of Kalamunda**

**March 2009-  
December 2012**

### **Parks Supervisor**

- Mentor and induct new staff.
- Resource allocation and planning of work schedules and programs to Team Leaders.
- Supervision of contractors and external service providers.
- Resolution of team performance issues, including those escalated by Team Leaders. If unable to resolve independently, then these are to be escalated to the appropriate Coordinator.
- Work with other Supervisors to deliver projects and activities.

## **Campwild Adventures Company Director**

**2002-2009**
